

Speaker Introduction Notes (modify as needed for length)

Robert A. Green, Ph.D., PE, F.NSPE is a:

- Registered Professional Engineer
- Past-President of the National Society of Professional Engineers
- A Fellow of the National Society of Professional Engineers
- Past-President of the Mississippi Engineering Society
- A member of the American Society of Mechanical Engineers
- A member of the research society Sigma XI
- A life member of the United States Naval Institute
- A life member of the Association of the US Navy
- A member of the Naval Order of the United States

He is also an officer of United States Navy:

- Holds the rank of Captain (Colonel for the non-Navy types).
- An Engineering Duty Officer
- The Naval Sea Systems Command Reserve lead for the Missile Defense Agency
- Has held seven command tours

Robert is fortunate to have been employed by the Bagley College of Engineering at Mississippi State University where he:

- Is the Undergraduate Coordinator
- Teaches engineering students
- Was a Research Engineer with the Diagnostic Instrumentation and Analysis Laboratory (DIAL)
 - Was the Chief Test Engineer at DIAL
 - Was also the manager of the Field Operations team at DIAL

In his spare time Robert likes to read, write, and spend as much time as he can with his wife and granddaughter (and her parents). Robert loves collecting books but does most his reading on his Amazon Kindle or iPad. He reads mainly biographies, history, leadership, religion, and some fiction to keep things balanced.
